

## Its reason.

Purdue University through its Purdue Kenya Program developed a Global Pharmacy Residency Program. This is an international pharmacy residency program with a focus on training participants to be global health care practitioners who are able to provide leadership in resource-constrained settings worldwide. The residency class is comprised of American and Kenyan pharmacists allowing for a bilateral exchange of experiences and ideas. The program's main goal is to train clinical pharmacists who can develop and deliver sustainable healthcare.

## Its values.

### Patients First

Excellent patient care is the first priority and the focus of all activities

### Investing in Future Leaders

Develop global health champions in pharmacy through mentoring and training

### Bilateral Collaboration

Work together in a collaborative, supportive, goal-oriented environment of trust, encouragement, and accountability.

### Sustainable Impact

Establish programs lasting beyond the tenure of any individual and independent of any single funding source

### Sharing Best Practices

Disseminate knowledge and experience through scholarly activities

## Its vision.

Provide the premiere global health residency program for international pharmacy leaders who will establish sustainable healthcare services.

## Its mission.

To educate international pharmacy residents in a diverse, collaborative environment resulting in innovative healthcare enhancement and expansion of clinical pharmacy services.

## Its rewards.

- Structured training plan
- Training and experience in publishable research projects
- Experience caring for patients in a resource-constrained setting
- Positive team environment for learning
- Opportunity to work side by side with Kenyan pharmacists and residents
- Memories to last a lifetime

## Application requirements.

- PharmD and completion of a PGY-1 residency
- Letter of intent/personal statement-1-2 pages addressing your interest in global health and a long-term plan
- CV
- Three letters of recommendation—applicants are encouraged to provide references from mentors in international experiences or resource limited settings

Application materials will be accepted **beginning December 1<sup>st</sup>**, with a submission deadline of **January 4**. Send materials electronically to:

**Jan Metzler**

# Why a global health residency?

"Global access to medicines and addressing needs of underserved populations are issues that we as healthcare professionals will continue to hear more and more about. This program is a wonderful opportunity to learn first-hand about both challenges and impact."
